//////////////////////////////////////
 All City Points must be submitted by coaches, along with the bowler's league record sheets. Considered are the bowlers top performances in league play, keeping series and individual high games separate. Bowlers receive extra points for bowling in the City Tournament, as well as extra points if they finish in the top five positions. They receive extra points for their averages as of April 1st. However points are subtracted for each game not bowled during the regular league schedule, prebowed games are not considered.
